PROFILE

Results-driven Information Management Specialist and Power BI Developer with 2+ years of experience in humanitarian data systems. Proven expertise in designing interactive dashboards, managing displacement and health infrastructure databases, and producing infographic reports for multi-sectoral stakeholders. Deep understanding of IASC data protection standards, humanitarian coordination architecture, and field data collection methodologies. Native Arabic speaker with English B2 (IELTS), committed to turning raw humanitarian data into evidence that protects lives.

PROFESSIONAL EXPERIENCE

Information Management & Power BI Developer

2025 – 2026

Engineers Syndicate | Gaza, Palestine

- ▶ Designed and deployed 4 live interactive Power BI dashboards tracking Gaza health infrastructure (108 facilities across 5 governorates), 12K displaced persons, child protection cases (99 cases), and global energy data — enabling data-driven decisions for multi-sectoral humanitarian stakeholders.
- ▶ Built the Gaza Health Infrastructure Dashboard mapping bed availability (4,000+ beds), active capacity (57.4%), and capacity crisis indicators across governorates — directly used by humanitarian coordinators for response planning.
- ▶ Developed a Displaced Persons & Aid Distribution system monitoring 966 beneficiaries, 278 critical families, and \$260K in distributed aid with distribution tracking and gap analysis.
- ▶ Created a Child Protection Dashboard (2024) tracking 99 cases by violation type, area, social worker, and monthly trends — supporting CP cluster coordination and case management workflows.
- ▶ Cleaned and analyzed multiple complex datasets to surface trends, gaps, and vulnerabilities; produced infographic-rich reports aligned with donor reporting requirements and Humanitarian Programme Cycle (HPC) standards.
- ▶ Ensured 100% compliance with internal data management guidelines and IASC global data protection principles across all IM processes.

Information Management Consultant (Freelance)

2023 – Present

Remote / International Clients | Gaza, Palestine

- ▶ Architected Survey Genius — a live web platform for humanitarian data collection with real-time analysis and automated reporting modules, directly aligned with IM requirements for donor reporting.
- ▶ Engineered data pipelines connecting field collection (KoboToolbox/ODK concepts) to cloud databases (Firestore/REST APIs), ensuring reliable data flow for real-time operational reporting.
- ▶ Engineered data pipelines connecting field collection (KoboToolbox/ODK concepts) to cloud databases (Firestore/REST APIs), ensuring reliable data flow for real-time operational reporting.
- ▶ Produced data visualization products including charts, maps, and statistical infographics to facilitate information sharing and advocacy for NGO and coordination partners.

Software Engineer Intern

2024 – 2025

Uplancer Company | Gaza, Palestine

- ▶ Built an MVP data system using Clean Architecture principles — focused on complex data retrieval, structured reporting, and scalable database design.
- ▶ Collaborated in an Agile/Scrum environment across cross-functional teams to deliver IM-related features on strict deadlines.

KEY PROJECTS & DASHBOARDS

HOS — Gaza Health Infrastructure Dashboard [Power BI](#) · [DAX](#) · [SQL](#)

Live Power BI report: 108 facilities, 4K+ beds, 5 governorates — capacity crisis indicators, ownership breakdown, bed availability by area. Used for humanitarian health coordination.

Displaced Persons & Aid Distribution Dashboard [Power BI](#) · [Power Query](#) · [DAX](#)

Multi-page BI system: 12K displaced persons, 966 beneficiaries, \$260K aid tracked. Vulnerability scoring, gap analysis across 4 sectors.

Child Protection Dashboard — 2024 [Power BI](#) · [Case Management](#)

99 CP cases tracked by violation type (psychological, physical, exploitation, neglect), area, social worker, and monthly trends. Supports CP cluster reporting.

Global Energy Transition 2000–2024 [Power BI](#) · [Statistical Analysis](#)

25-year, 108-country, 5-source analysis. 4-page drill-through report: executive KPIs, country deep-dive, renewables vs fossil fuels, source-type analytics.

Survey Genius — Data Collection Platform [Flutter](#) · [Firebase](#) · [REST APIs](#)

Live web platform for humanitarian data collection with real-time analysis, AI-powered analytics, and automated donor-ready reporting.

Nama Education IM System [SQL Server](#) · [KoboToolbox](#) · [Power BI](#) · [Python](#)

End-to-end information management system for a UNICEF-funded community education programme serving 850+ orphan beneficiaries across 6 centres in Gaza. Designed relational SQL Server database (8 tables, Views, stored functions, role-based permissions), built 3 KoboToolbox/XLSForms with automated pulldata from the database roster, developed a Python API pipeline for daily automated import from Kobo to SQL Server, and delivered a 3-page interactive Power BI dashboard (executive summary, donor KPI tracker with conditional formatting, early-warning attendance monitor).

TECHNICAL SKILLS

Data Visualization [Power BI](#) (Advanced DAX, Power Query, Drill-through), Infographic Design, Interactive Dashboarding, ETL Processes

Information Management Humanitarian IM, Data Collection (KoboToolbox / ODK), Database Management, Statistical Analysis, Data Protection Standards (IASC)

Data Management & Reporting Data cleaning & transformation, report design, infographic production, indicator tracking, dashboard publishing

Data Tools [SQL Server](#), [Excel](#) (Advanced), [Python](#) (data cleaning & automation), [REST APIs](#), [KoboToolbox/XLSForms](#)

Coordination & Reporting 3/4/5Ws Reporting, Cluster Coordination, HNO/HRP inputs, Donor Reporting, Inter-agency Data Sharing

Technical [Git/GitHub](#), [Agile/Scrum](#), [Microsoft 365](#), [Adobe Suite](#) (basic)

EDUCATION & TRAINING

Bachelor of Science — Software Engineering

Sep 2020 – Sep 2025

University of Palestine | Gaza, Palestine

- Relevant coursework: Database Management Systems, Statistics, Information Systems, Algorithms, Software Architecture.

Flutter & Mobile Development Training

Dec 2022 – Mar 2023

Gaza Sky Geeks | Gaza, Palestine

- Intensive training in Dart, Flutter, OOP, data integration, and collaborative software development.
